**NC BIKER RIGHTS - Let the Rider Decide!
URGENT CALL to ACTION
NC Legislative Buildings
Thursday, April 26, 10am**

[House Bill 563](#), designed to add teeth to the current helmet law, is scheduled to appear before Judiciary III of the NC House. A paragraph in this bill would require you to wear a helmet in compliance with FMVSS 218, a federal standard which is not meant to be understood by riders or law enforcement. Since you cannot ensure compliance, the law will be vague and unconstitutional. This is not the kind of laws we expect from our legislators. See [vagueness letter](#).

BIKERS USA urges you to either contact members of Judiciary III before Thursday morning, ([contact list](#)) or visit the NC Legislature for their meeting at 10am. ([Directions](#)).

Please tell them you oppose the portion of the bill related to motorcycle helmet laws, and that you also oppose mandatory helmet laws for adult riders.

Out of state riders are urged to contact the committee and tell them you will not spend tourism dollars in NC until they have better helmet laws. **Motorcycle event promoters** are urged to tell them you plan to hold events in states with better helmet laws. **Motorcycle magazines and motorcycle event publishers** are urged to tell them helmet laws send events to other states. **Motorcycle dealers** are urged to tell them you could have more business if NC had better helmet laws.

For more information, visit [NC Biker Rights](#).

This call to action is dated April 25, 2007, and issued by BIKERS USA and BOLT of NC.
